

Sedona Wrap

Yarn and Yardage:

Fingering and light worsted in same hand dyed colorway. You'll need one hank each approx. 250 -300 yards of worsted and 450 yards of fingering. Buy a hank of each and don't worry about exact yardage as the pattern is flexible.

Always:

1. Always slip the first and last stitch in each row for a clean edge and carry both fingering and worsted up the side.
2. Always knit the first five stitches in each row. This will make it so the wrap doesn't curl up on the edge of those stockinet rows.

Pattern Guidelines:

The wrap is knit in three parts. Two ends and a middle. I think I did this because after 30" of knitting I was getting a little bored and needed to make a change.

Cast on 40 stitches.

Part 1:

Knit two garter stitch ridges in worsted. (Four rows)

Sedona Wrap

Knit 10 rows in Stockinet stitch in fingering.

Repeat til wrap is 30" long.

Part 2: Now, switch it up!

Knit four garter stitch ridges in fingering. (Eight rows)

Knit four rows of Stockinet stitch in worsted.

Knit four garter stitch ridges in fingering.

Knit eight rows Stockinet stitch in worsted.

Repeat for 12"

Part 3:

Go back to Part 1 (original knitting pattern).

Knit two garter stitch ridges in worsted.

Knit 10 rows in Stockinet stitch in fingering.

Repeat for another 30"

Wrap length is approximately 72"

Cast off and wet block flat. It doesn't take very long to dry because its so lightweight.

Once dry, wrap around your shoulders and think about all the fun hiking in the Red Rocks of Sedona!
